Ray Mikol, D1 SWIFT SunGuide, informed the team of the performance measures for 2023.

Heidi Hoffman, Department of Environmental Protection, informed the team they have hired a new employee to add to their workforce.

The team was informed that the expansion of the Lee County Emergency Operations Center building is currently under construction.

Update on TIM Initiatives:

Tom Arsenault, Metric Engineering, reminded the team about the purpose of the TIM Meeting.

- TIM is the coordinated detection, response to and removal of traffic incidents as quickly and safely as possible. TIM is a coordinated effort among multiple agencies.
- The primary purpose of TIM is to reduce the duration and impact of incidents as well as to improve the safety of motorists and most importantly our incident responders.
- The TIM Meeting is to help prop up the communication, coordination, and collaboration among our incident responders.

Tom Arsenault informed the team about Road Ranger Yosvanys Hernandez Garcia receiving an award for his outstanding efforts while working along the highway.

On Tuesday June 27, 2023 at 11:48 pm, Road Ranger Yosvanys Hernandez Garcia was patrolling his zone on Alligator Alley Northbound around the 80 Mile Marker when he noticed headlights coming at him from the wrong way. The vehicle was southbound in the left northbound lane. Road Ranger

Garcia immediately activated his emergency overhead lights to notify the traffic behind him. He was able to get the traffic to stop and intercept the wrong way driver between the off ramp and on ramp for Exit 80.

Road Ranger Garcia spoke with them quickly and was able to get them to pull off to the shoulder. It was a young driver with her parents in the back seat. After talking to the driver, he assessed that no drugs or alcohol were involved.

They informed him they were headed to Ave Maria from Miami and had just missed the exit. (Exit 80). He was able to safely get them turned around and headed to Naples in the correct direction. Road Ranger Garcia also advised them that it was highly dangerous and illegal to turn around anywhere while on the interstate.

Amber Allen and Robert Langston, Air Methods Corporation, presented to the team on the role and coordination of medical flight during traffic incidents. Air Methods Corporation is a leading air medical services provider that plays a crucial role in responding to incidents on highways. They operate a fleet of helicopters and fixed-wing aircraft equipped with medical equipment and highly trained medical professionals. Their rapid response capability helps in transporting critically ill or injured individuals from highway incidents to medical facilities swiftly, providing essential care during transit.
