Update on TIM Initiatives:

Tom Arsenault, Metric Engineering, reminded the team about the purpose of the TIM Meeting.

- TIM is the coordinated detection, response to and removal of traffic incidents as quickly and safely as possible. TIM is a coordinated effort among multiple agencies.
- The primary purpose of TIM is to reduce the duration and impact of incidents as well as to improve the safety of motorists and most importantly our incident responders.
- The TIM Meeting is to help prop up the communication, coordination, and collaboration among our incident responders.

Tom Arsenault, Metric Engineering, provided the Road Ranger performance statistics.

Tom Arsenault, Metric Engineering, presented to the team crash scene photography, which is important because, besides eyewitness accounts and a police report, it might be the only reliable evidence that can be collected from the scene.
