Here is your chance to gripe about congested locations

The Lee County Metropolitan Planning Organization (MPO) needs your help in identifying congested roads for which it may be able to identify relatively low-cost or “quick fix” improvements to improve the operation and safety of the existing transportation system. Improvements include realigning minor roadways, changing road signing or striping, installing or synchronizing traffic signals, adding or extending turn lanes at intersections, accommodating bike/ped facilities that encourage non-motorized transportation etc. If you are aware of congested locations, please fill out the survey below, clip it and mail it to the MPO, or fax it to (239) 790-2695, or go online to <https://www.surveymonkey.com/s/2012LeeMPOCMS> to complete an interactive form. If you have a smart phone, you can access the form by scanning the QR code at the top of the page.

.....
Please identify the congested locations and describe any measures you think might help alleviate the congestion by filling out the information below (If you plan to fax/mail the form you may like to make multiple copies of this form to report multiple locations).

Location of traffic back up: _____

Direction that becomes backed up:

Northbound

Southbound

Eastbound

Westbound

Time of day back up occurs:

Morning Rush Hour

Evening Rush Hour

Other: _____

How often does back up occur: Daily Seasonally

What is the cause of the back up? (i.e.: traffic accidents, signal timing, inadequate turn lane storage, road work etc.)

What specific actions would you suggest to alleviate this back up?

Do you use any real time traffic information to plan your trip?

a) Traffic Reports b) 511 c) Other drivers d) Other _____

Please answer the following two vehicle operability questions:

What type of vehicle do you currently operate?

a) Car b) Bus c) SUV d) Truck e) Semi-Truck f) Bicycles/Wheelchairs g) Other _____

If you have difficulty maneuvering your vehicle in certain roadways please list the locations and the types of movements you have problems executing? (i.e.: making u-turns, left turns, right turns, changing lanes due to bottlenecks, crossing intersections due to lack of marked crosswalks and ped pushbutton signals, etc.)

PLEASE COMPLETE AND RETURN THE SURVEY TO THE LEE COUNTY MPO BY APRIL 18, 2012
